## INTERSHIPS

Intern at OCT : Office de commerce de Tunisie

August-September 2023

development tools :

- Xampp
- Laravel
- Vs code

## EXPERIENCE

Black Shark Team : Robotics club  
Co founder

May 2022 - present

- Achieved 1st place 50 kg combat robot competition: Esprit Ras Robots 2.0
- Participated in Battle Robot 2023 Tunisia

I am part of a robotics club where I actively participate in the design, programming. and assembly of robots.

This club has allowed me to develop skills in electronics, programming (particularly using languages such as C++ and Python), and mechanical engineering

Game design and development day : Esprit

- Achieved second place : Best project jan - may 2024
- I developed a game using the C programming language and the SDL (Simple DirectMedia Layer) library, which enabled me to create 2D graphics and efficiently manage audio, input, and event handling

Interact club

Senior membre

november 2022 - presnt

- Participation in volunteer projects aimed at improving the community:
